FOREWARD

TO: Hospital Administrators
Medical Staffs, and Nurses

This is the 1970 report of infant and fetal mortality rates of Montana Hospitals. The figures in this report were taken from birth and death certificates reported to the State Department of Health, Division of Records and Statistics.

In 1970 there were 12,450 births in Montana by place of occurrence. There were 192 neonatal deaths, with a rate of 15.4 per 1,000 live births. There occurred 139 stillbirths with a rate of 11.2 per 1,000 live births. Perinatal deaths numbered 331 with a rate of 26.6 per 1,000 live births.

This report allows each hospital to see where it stands in relation to other Montana Hospitals, and it may indicate a need for evaluation of services to insure improvement in the future.
